

Guidance from specialists with firsthand CGM experience

Practical guidance from experienced CGM users

Support beyond delivery

Most suppliers manage paperwork, coverage, and shipping.

Wellstart goes further.

We draw on firsthand CGM experience to help patients get started, build confidence, and maintain adherence to your treatment plan.

Our Patient Care specialists are an extension of your team, providing support between office visits

Many of our Patient Care specialists use CGM themselves, bringing firsthand experience to patients who need help with:

- Getting started with the first sensor
- Troubleshooting connectivity issues
- Connecting with manufacturer support
- Managing alerts and notifications
- Understanding sensor placement
- Navigating everyday challenges

800-978-7599

Partnering with you.
Supporting your patients.

Wellstart takes care of the CGM details so your team can focus on care

FOR YOUR OFFICE

A simpler process with fewer demands on your team
